

Centtrip

Cookie Policy

What are cookies?

A cookie is a small text file that a website saves on your computer or mobile device when you visit the site. It enables the website to remember your actions and preferences (such as login, language, font size and other display preferences) over a period of time, so you don't have to keep re-entering them whenever you come back to the site or browse from one page to another.

For more information see: <http://www.allaboutcookies.org/>.

How we use cookies?

Our web platform <https://account.centtrip.com/> does not use cookies. Our website www.centtrip.com ("our site") uses cookies to distinguish you from other users of our site. This helps us to give you the best possible experience when you browse our site, and also allows us to improve our site.

We only use one type of cookie, known as analytical or performance cookie. They allow us to do a few things, including:

- Count the number of visitors to our site and see how they move around when they're using it.
- Store information about your preferences, which allows us to customise our site and provide you with content which may interest you.
- Recognise you when you return to our site.

All of this helps us to make our site better for you as it means we can ensure you find what you're looking for easily and speed up your searches.

Enabling these cookies is not strictly necessary for the website to work but it will provide you with a better browsing experience. You can delete or block these cookies, but if you do that some features of this site may not work as intended (see how to control cookies below)

The cookie-related information is not used to identify you personally and the pattern data is fully under our control. These cookies are not used for any purpose other than those described here.

Please note that third parties (including, for example, advertising networks and providers of external services like web traffic analysis services) may also use cookies. We have no control over these. Third party cookies are likely to be analytical or performance cookies or targeting cookies.

How to control cookies?

You can control and/or delete cookies within your browser, by activating its setting that allows you to refuse all or some cookies - for details see www.aboutcookies.org.

Please be aware that if you change your browser settings to block all cookies (including essential cookies), you may have to manually adjust some preferences every time you visit the site and you may not be able to access all or parts of our site.
